- Secured 1st rank in a debate competition organised by Tagore academy.

## PROJECT

### Social distancing project(covid19)using opencv and deep learning

- This project uses opencv and deep learning to map in real time that two person are social distancing. It maps people using object detection and distance between the people are measured in pixel.

### Google app review system

- <https://github.com/shubham897/google-app-review-system>  
It is using machine learning algorithm with Numpy and pandas. It was created to select the best app and the worst app by analysing various review given by the app users. It is basically a Data analysis project.

### Artificial Chatbot

- <https://github.com/shubham897/Artificial-chatbot>  
In this project I have created a chatbot using deep learning , tensorflow and also artificial intelligence. The chatbot conversation skills are highly enhanced because of using deep learning and neural network.

## INTERNSHIP

### PUCHO TECHNOLOGY PRIVATE LIMITED

- Deep Learning Intern:- Implementation of various Deep learning algorithm in order to provide real world solution

### INDIAN CYBER SECURITY SOLUTIONS

- MACHINE LEARNING TRAINEE

## POSITION OF RESPONSIBILITY

- Club Manager of hackathon and coding club of BIT Sindri.
- Member at NSS BIT Sindri chapter.
